About Me

I am a senior student in Information Systems – Business Solutions with strong organizational and analytical skills. I have hands-on experience in data analysis, SAP systems (ERP, HRM, CRM), and digital archiving. I'm passionate about using technology and data to support smart decisions, improve efficiency, and enhance business performance.

Achievements

- **EmiratesSkills – Web Tech (2024)**

Competed in national-level front-end coding.

- **ICA Hackathon (Oct 2023)**

Collaborated on a digital solution for archival systems.

- **Zero Robotics Challenge (June 2023)**

Participated in a national programming competition.

Experience

- **Intern – Ministry of Justice (2025)**

Analyzed service data, archived records, and observed decision-making processes.

- **Intern – Etimad / Alfaahad (2023)**

Supported IT operations and maintained security systems.

- **Fazaa Volunteer (2020)**

Entered and organized PCR test records during COVID-19.

- **Think Science Volunteer (2019)**

Guided VIP visitors and supported event coordination.

- **Innovators Volunteer (2017)**

Assisted international guests using multilingual skills.
